Precious and Pearl Brands Pty Ltd

Primary Line of Business: Manufacturing of Ghemere Concentrate. A homemade Ginger beer concentrate.

We are on a path to prove that a previously non-commercialized product can become a household brand.

We are preserving a traditional recipe that is slowly being lost amongst generations because the knowledge has not been passed on from one generation to the other. Also it takes 12 hours to prepare so people are just frustrated by the process of making it.

Ginger drink or Ghemere (a non-alcoholic ginger beer) as its affectionately called locally has its roots deeply planted in South African heritage, tradition and culture. For many years' ginger drink has played an important role moulding our culture and how we celebrate in South Africa. Many of us grew up drinking Ghemere at weddings, parties, as a special treat at home as well as funerals and Christmas celebrations.

Keeping in mind the historical value and cultural relevance, the enormous task then becomes how to continue the legacy of this iconic beverage and package it in such a way that it appeals to today's consumers.

Our long-term vision is to make Ghemere a household brand that can be enjoyed any time. We want to be part of the grocery list. Our brand promise is delivering happiness.

Ghemere Products

Our products are divided into 1 Litre, 2 Litre and 5 Litre concentrate and a 330ml Ready to Drink. Ghemere is packaged in recyclable PET (1L) and HDPE bottles (2L&5L) which are manufactured locally, in South Africa. The Ready to drink is in a carton packaging as we try to play our part towards environment impact.

All our products have been tested at SABS and Merieux NutriSciences laboratory in Midrand for shelf life and nutritional information.

We do Asian style street food, Strictly Halaal. Our main business is to do pop-ups at markets & events. We also do private catering for parties, school and work events. We currently do stall set ups, but working towards our goal of a food truck. Our menus are based on Asian flavors. Menus are adjusted according to event. Flavor and freshness is what we emphasize on.

Some of the previous markets and events we have done: Halaal Goods Markets (+- 10000 feet per day). We started with Halaal Goods Market and we became popular instantly. The support at our first market was overwhelming as we did not expect to hit it off instantly. We have been called back to do the Halaal Goods Market ever since.

Qurtuba markets: this is also a very well attended market and kept us very busy.
